Description

Description : When a customer has an existing due amount and return a paid product, the return product's price should be deducted from the customer's **Total Due.** However, After Processing the return, The System doesn't reduce the total due by the returned product's price.

Step To Reproduce:
1. Select the Customer parties with an existing due.
2. select the paid products .
3.Then return the paid products .
4.Complete the return product.
5. Check the total due.

Expected Result : After returning the paid product, the product price should be deducted from the Total Due.

Actual Result:
The system does not deduct the returned product's price from the Total Due.
