Description

Title : When a product is Purchased with a change the buying price , the system doesn't calculate the stock valuation correctly. When Creating a Successfully Purchase invoice with a change the buying price , the stock valuation should be updated.

Step To Reproduce :
1. Go to Purchase Invoice .
2.Select the product.
3.Enter The Quantity and Change the Buying Price.
4.Create the Purchase Invoice.

Expected Result : When change the Purchase Price the Stock Valuation should be updated Correctly.
Actual Result : After purchasing the product with a dynamically entered purchase price, the system calculates the **stock valuation incorrectly**.
